

Across Borders

'Across Borders - China & Japan', was a project for the children of grades 1 to 8. The students were divided into groups that took up the topics related to culture, religion, food, ethics, etc of both countries, China and Japan. The children danced Chinese and Japanese dances like umbrella dance, cap dance, fan dance, dragon dance, etc. They recited words and sounds of the Chinese and Japanese alphabet, performed karate, made models of the Great Wall of China, Acupuncture, villages, temples, etc. They put up a display of Japanese and Chinese bowls, and even ate noodles for tea with the help of chop sticks.....

It was great fun and learning for both the teacher and the taught! Tremendous effort was put into the project and it yielded great fruit. We are grateful to our staff and students for organizing such a great show!
