- b) They are decorating the wall.
- c) You should not replace the roof.
- d) Someone smashed our window last night.
- e) I had broken the window pane.

**Section B
Comprehension**

Q4 Read the following information about cartoonists and then answer the questions that follow. [5]

So you want to be a Cartoonist.

What writers struggle to express through numerous newspaper columns, the cartoon manages in a pointed one-liner. Little wonder then, that the first thing most of us like to see when we pick up a newspaper is the cartoon. Simple though it may seem, making a cartoon is an art that requires a combination of hard work, training and a good sense of humour. Cartoonists say that

the cartoons that make us laugh the most are in fact the cartoons that are hardest to make. Even celebrated cartoonists like R. K. Laxman admit that making a cartoon is not a piece of cake. Laxman says he has to wait for over six hours, which includes spending a lot of time scanning newspapers and television channels before any idea strikes him.

So how does one become a cartoonist? Which of us has the talent to make it? How can we master the rib-tickling strokes and the witty one-liners? How can we make people smile or laugh? There are few colleges or schools for cartoonists. Most cartoonists come from Art colleges, while some learn the craft on their own. Most established cartoonists are of the view that no institute can teach you to make a cartoon. "You can pick up the craft, you may learn to sketch and draw in institutes, but no one can teach anyone how to make a good cartoon," says Uday Shanker, a cartoonist with Navbharat Times. While basics, like drawing and sketching can be learnt in an Art college, and are important skills, these alone, do not make a good cartoonist. Because it's a question of one's creativity and sense of humour; two qualities one simply may not have. The advice, established cartoonists give is that just because you can sketch, don't take it for granted that you will become a cartoonist.

A. Answer the questions briefly:

- a) How are cartoons effective? [1]
- b) Name the three qualities that a person must possess to make a good cartoon. [1]
- c) Which cartoons are the hardest to make? [1]

B. Write the meaning of the following words: [2]

- a) Numerous
- b) Humour

Section C
Letter Writing

Q5 Overuse of the computer makes children lose out on outdoor games which are essential for developing a healthy body and a healthy mind. As a parent write a letter to your child who is a boarder advising him to curb his desire for the laptop and to give more importance to academics, co curricular activities and games.
