

Horse Riding – A New Venture

This year, Laidlaw proudly introduced **Horse Riding** for students from Class IV onwards, in collaboration with *Western Hooves and Paws*, an academy with over nine years of experience in training young riders.

The programme is designed not only to teach the safe handling of horses and equipment but also to nurture **confidence, focus, and discipline**. Beyond the joy of riding, students gain valuable life skills in a structured and safe environment, while exploring a unique sport that encourages both responsibility and resilience.
